# PRESIDENT'S REPORT

2021 was a busy year for the Alberta Dental Association and College and the dentists of Alberta.

The entire year was conducted in the midst of the worldwide COVID-19 pandemic.

The Council of the ADA&C and its COVID-19 Response Team (CRT) continued its work from 2020 of liaising with, and monitoring information from, national and provincial health authorities. Its mandate being to provide effective and practical guidance to the dentists of Alberta on COVID-19 protocols. Throughout 2021 the dentists of Alberta were able to ensure that the citizens of Alberta had uninterrupted access to high quality oral health care in a safe environment.

In late 2020 the Government of Alberta (GOA) had passed Bill 46: *The Health Statutes Amendment Act, 2020 (No2)*. This omnibus Bill made a number of changes to how Regulatory Health Colleges operated. The GOA methodically proclaimed sections of Bill 46 throughout the year, thus allowing Regulatory Colleges time to implement the required changes.

Bill 46 changed the College's role to strengthen the obligation of the College to follow the *Health Professions Act* (HPA). This change also requires a College to not act or hold itself out as a professional association. The College must submit to the Minister of Health a plan to divest itself of the professional association functions by March 31, 2022. The College must be completely divested of the professional association functions by March 31, 2023, including having no functions of, connection to, or affiliation with a professional association or union.

Council confirmed that the stand alone College would be named the College of Dental Surgeons of Alberta (CDSA). It began the process of developing a communication plan to ensure the public was aware of the transition and would always know where and how to reach the Dental Regulator.

Additionally, Council and Administration undertook a very structured analysis of all its products and services to ensure that any association activities were transitioned away from the ADA&C.

The Council of the Alberta Dental Association and College also took a number of steps to ensure that the transition of its association functions to a new and separate entity occurred in a smooth and structured manner.

A new Alberta Dental Association will be created by the dentists of Alberta to assume the important supportive association activities that all dentists need to ensure their ability to deliver high quality safe dental care for the public.

Council also took a major step in enhancing public safety by introducing a Professional Liability Insurance Program for the dentists of Alberta to take effect beginning January 1, 2022. This malpractice insurance program is a made-in Alberta plan – for Albertans by Albertans.

By having a College mandated plan, as permitted and required by the HPA, it ensures that all dentists holding a valid practice permit also have the required liability insurance. Additionally, it ensures no changes can be made to the plan policy without the approval of Council, and greatly enhances the ability to control policy costs. All of these benefits increase the ability of ADA&C, and the future CDSA, in its role of public protection.

There are many other requirements of Bill 46 that are designed to modernize the HPA and continually improve the public's access to quality oral health care. The Council and Administration of the ADA&C are committed to ensuring that these changes are incorporated in a timely manner.

I would like to close by thanking my fellow Council members as well as the members of the Administration for all their support this past year. They are dedicated individuals who are solely committed to their role in our healthcare system to the benefit of all Albertans.

Sincerely,

Dr. Mintoo Basahti  
President, Alberta Dental Association & College

# MISSION, VISION, & GOALS

## MISSION

The ADA&C gives leadership to the dental profession on professional regulations and member services. It provides the public with information and services to ensure that Albertans receive safe, appropriate, ethical, and quality dental care as an integral part of general health.

## VISION

Albertans recognize and regularly use dental services as key components of their primary health care. The dentist-patient relationship is seen as central to the ongoing health of Albertans. Albertans trust their dentists, and view them as the leaders in the delivery of the most advanced, evidenced-based, and caring dental services. Dental practices are considered a vital part of Alberta communities, and dentists are active contributors to community life.

The ADA&C upholds the public trust of dentists, and preserves the integrity of the relationship of dentists with government, service care providers, supporters of dental services, and the business community.

## GOALS

- Optimizing dental health services for all Albertans through governance leadership in the profession that ensures safe, appropriate, and ethical oral health care.
- Effective and efficient resolution of problems regarding dental health services provided by dentists; with patients, dentists, government, industry, and other health professionals.
- In cooperation with patients, dentists, government, industry, other dental organizations and health professionals, the Alberta Dental Association and College supports effective resolution of health-care delivery issues to ensure that the public does not receive unsafe, inappropriate, or unethical oral health services.
- Effective communication and collaborative relationships with dentists, the public, government, industry, other dental organizations, and health professionals.
- Promotion of excellence in the delivery of dental health services.
- Positioning of dentists and dental services with all stakeholders as trustworthy, competent, and responsive to the personal wellness of Albertans.
- Effective monitoring and support of continuing competence and capacity to practice of Alberta dentists.

# PUBLIC MEMBERS' REPORT

The dental profession in Alberta is self-regulated through the Alberta Dental Association and College (ADA&C).

The ADA&C Council is composed of regulated members elected by dentists and public members appointed by Alberta's Minister of Health. Three new public members were appointed this year – public members now comprise 50% of the ADA&C Council.

Both the public and the regulated directors of the ADA&C work toward the goals of protecting the public, adhering to statutory requirements, developing and fostering appropriate professional standards, and providing quality care to Albertans. Public members engage fully on subcommittees, task forces, hearing tribunals, complaint review committees, appeal panels, and in decision making at regularly scheduled meetings of the ADA&C.

In 2021, the ADA&C continued to provide leadership through the COVID-19 pandemic. The guidelines that the ADA&C developed for dentists ensured access to safe dental care for Albertans. Appropriate protocols in dental offices protected members of the public from COVID-19 transmission in Alberta dental offices.

This year, public members participated in three significant ADA&C initiatives for the benefit and protection of Albertans and the dentist members:

- A successful public education campaign for the reintroduction of fluoride in the water in Calgary.
- Establishing the Professional Liability Insurance Program, which is the first “made-in-Alberta” insurance plan for dentists in our province. This new approach integrates insurance coverage with registration to ensure Alberta dentists are always covered by professional liability insurance to protect the public.
- Extensive task force work to develop an action plan for the divestment of the ADA&C into two distinct entities effective March 31, 2023: The College of Dental Surgeons of Alberta will fulfill the mandate of public protection, and the Alberta Dental Association will provide programs, products, and support to dental professionals.

We are looking ahead into 2022 with a goal of increasing diversity amongst the public and regulated member directors of the ADA&C to reflect the community of Albertans that we serve.

*Mr. Terrence Bayrock, Ms. Scarlett Crockatt, Ms. Barbara Chipeur, Ms. Shari LaPerle,  
Ms. Nuvyn Peters, and Ms. Nikki Sandie*

# COUNCIL

## Executive Committee

Dr. G.S. (Mintoo) Basahti  
President, Edmonton District

Dr. S. Bruce Yaholnitsky  
Past President (Non-voting)

Dr. Lee G. Darichuk  
President-Elect, Calgary District

Ms. Nickolletta (Nikki) Sandie  
Executive Public Member

## Directors

Dr. Troy A. Basarab  
Southern District

Dr. Tobin F. Doty  
Calgary District

Dr. Michael E. Piepgrass  
Northern District

Dr. Nathaniel D. Podilsky  
Edmonton District

Dr. Neil E. Strembiski  
Central District

## Public Members

Mr. Terrence Bayrock

Ms. Barbara Chipeur

Ms. Scarlett Crockatt

Ms. Shari LaPerle

Ms. Nuvyn Peters

# NEW COUNCIL MEMBERS

## DR. TROY BASARAB

Dr. Basarab was born in High Prairie, Alberta and grew up in Vulcan, Alberta. He received his DDS from the University of Alberta in 1991. Following graduation, he practiced in Edmonton for 3 years. While practicing general dentistry, he taught at the University of Alberta School of Dentistry in Removable Prosthodontics and in Periodontics. Dr. Basarab returned to graduate school at the University of Michigan. He completed a Master of Science degree and a clinical certificate in Periodontics. After graduate school, he moved back to Alberta and has had a periodontal practice in Lethbridge since 1997.

Dr. Basarab met his wife while at the University of Alberta and they have been married since 1990. They have 2 adult children that still manage to phone them regularly.

Dr. Basarab has served as the president of a local study club, has been an active member of the Alberta Academy of Periodontology, and served as the president of the Canadian Academy of Periodontology from 2011-2012. He has also had the opportunity to serve the dentists and public of Alberta by sitting as a Director on the Alberta Dental Association and College Council. He served as the president of the ADA&C during the start of COVID-19, and is now at the end of his past president year.

Dr. Basarab currently serves on several ADA&C committees including the Economics Committee, the FETAP Committee, and the Governance and Human Resources Committee. He has also served on the Audit Committee. He serves on the Task Force that is reviewing Professional Conduct and a Task Force that is working on the divestment of the College and Association functions.

## MR. TERRENCE BAYROCK

Terrence Bayrock is a capable & experienced executive manager with over thirty-five years of experience in business management and technology development in various industry sectors. Terry has worked on various international business initiatives, both public sector and private sector, in countries as diverse as Chile, Japan, Korea, Germany, Switzerland, Mexico and the US. With a keen entrepreneurial spirit, he has lead research, development and commercialization of medical technology products, leading a multidisciplinary research team that developed a Health Canada/FDA certified Class II device in less than 1 year.

His inspired interpersonal, organizational, and time management skills had him initiating and managing a set of specialized medical diagnostic imaging facilities in concert with a general family medical practice during his career.

Terry serves on a number of Boards & Committees, including not-for-profits such as the Edmonton Regional Science Fair Committee and Alberta Aviation Museum. He is married and very proud of his two sons who are serving members in the Royal Canadian Air Force

## MS. SCARLETT CROCKATT

Scarlett Crockatt is the Regional VP of Business Lending at Roynat Capital (wholly owned subsidiary of Scotiabank). She leads the business from Alberta to North West Ontario where her teams specialize in innovative financing solutions for M&A and growth capital across the capital structure.

In her prior role as Director of Scotiabank's Corporate Investment Banking team, she managed a multi-billion dollar portfolio and provision of a full suite of products to clients in Canada, and globally. Her other experience includes Chairing the City of Calgary Council

Compensation Review Committee as well as teaching a senior year undergraduate Mergers & Acquisitions class (FNCE 465) at the Haskayne School of Business at the University of Calgary.

She was recognized as Investment Banker of the Year in 2019 by Women in Finance Canada and received her MBA (Class President) from Queen's University, and a BComm in Finance from the University of Calgary.

## DR. TOBIN DOTY

Dr. Doty graduated from the University of Toronto in 1984 with a BSc. Honors Degree followed by a DDS Degree. He played 5 years of varsity football and was on the winning team for the Yates Cup. Tobin earned the Silver T for Athletic Excellence. He served 8 years in the capacity of a dental officer; for four of those years he ranked as captain at Canadian Forces Base Calgary. He joined Deer Valley Dental Care in 1989 where he continues to practice today. He has been married to his best friend, Lisa, for 36 years. Together, they have three daughters and three grandchildren.

Tobin has always recognized the importance of organized dentistry, and he became active at a local level early on in his dental career. He served on the Calgary District Dental Society (CDDS) Board of Directors for two four-year terms, serving as President in 2010-11.

Tobin was elected to and served on the ADA&C Council from 2012 to 2018 and was president in 2015-16. During his tenure on the ADA&C, Tobin served on and chaired numerous committees including the Continued Competency Committee and the Governance Review Committee. In his presidential year, Tobin participated in the negotiations and sale of the old ADA&C building and was involved in the search for a new ADA&C home. He also chaired the Executive Search Committee which culminated in the hiring of Dr. Randall Croutze as the new CEO.

Tobin served as the ADA&C Representative to CDSPI for 5 years and attended all AGM's as a Voting Representative. In 2016, Tobin became the Alberta Representative to the Canadian Dental Association (CDA), and finished a 4-year term in April 2021.

He is a member of the CDA Strong Profession Committee. He has chaired three national committees in the past year: the Dental Claims Verification Committee, the Standard Dental Claim Form Working Group, and presently the Dental Benefits Committee (Insurance). He is also serving as the CDA Representative on the Steering Committee on CDA Governance Review.

Tobin is a Fellow of the International College of Dentists (ICD) and the American College of Dentists (ACD). In his free time, Tobin enjoys a variety of activities and sports, including golf and curling. He has organized the Calgary District Dental Curling League for 30 years, and he appreciates and enjoys the fellowship and comradery.

## DR. MICHAEL PIEPGRASS

Dr. Michael Piepgrass is a native of Alberta. He holds a Bachelor of Arts degree in Spanish from the University of Saskatchewan and received his dental degree from the University of Kentucky in 2013. Following dental school, Dr. Piepgrass elected to stay in Lexington, Kentucky to obtain a Master's of Science degree and a Certificate of Periodontics. Before returning to Canada he worked in private practice and also taught part-time in the College of Dentistry at the University of Kentucky. Upon returning to Canada in 2018 he has worked full-time in private practice in Grande Prairie, Alberta.

Dr. Piepgrass and his wife are the parents of 5 children. Their ages range from 3 to 11 years old. As a family they enjoy archery, hiking, snowboarding, and camping.

Dr. Piepgrass is a fellow of the Royal College of Dentists of Canada and is a member of the Canadian Academy of Periodontology, Alberta Academy of Periodontics, the Alberta Society of Dental Specialists, and the American Academy of Periodontology.

## MS. NUVYN PETERS

Nuvyn is a passionate community leader and seasoned executive with a strong record of achievements in development, community engagement and capital campaigns. Prior to joining The ESG Bank, Nuvyn was vice-president (Advancement) at the University of Calgary. Under her leadership, the ambitious Energize Campaign exceeded its \$1.3 billion goal, raising a milestone \$1.41 billion. Nuvyn's unique vision to develop a culture of lifelong philanthropic engagement earned the University of Calgary a place on the Globe and Mail's list of the top 25 fundraising institutions in Canada.

Nuvyn first earned her reputation as a philanthropic leader as Development Director of the Tahirih Justice Center where she advocated for the rights of vulnerable women and girls. Through subsequent leadership positions, including management of Georgetown University's \$1.5 billion campaign, Nuvyn continues to be an influential leader in the philanthropic community, working with donors and organizations throughout North America.

As CEO of Community and Retail Banking with The ESG Bank, Nuvyn is leading development and implementation of a new financial platform to harness capital for social impact. Integrating her extensive experience and leadership in philanthropy, Nuvyn connects values-oriented people, businesses, and services to instill environmental, social, and governance principles to create an exponential impact in the world.

Nuvyn holds a Bachelor of Arts in Political Science from the University of Saskatchewan, and a Master of Arts in Conflict Resolution from Landegg International University in Switzerland. An innovative and empathetic leader, Nuvyn was named one of Canada's top newsmakers of the week by Maclean's magazine, and is a recipient of Avenue magazine's "Top 40 Under 40" (2016) and Canada's "Top 40 Under 40" (2018). Nuvyn serves as an active Board Member for several organizations, including TELUS Spark, The Starratt Family Foundation, and the Alberta Dental Association and College Council.

### MS. NIKKI SANDIE

#### First Executive Public Member

Nikki is an Alumna of the University of Alberta where she graduated with a Bachelors in Arts. Her Arts degree comprised of Majors in Sociology (Sociology of Organizations) and Minors in Philosophy of Law and Ethics. She went on to obtain a Bachelor in Applied International Business and Supply Chain Management degree. Nikki has also attained certificates in Alternatives in Dispute: An Introduction, and The Basics of Writing Policies and Procedures. She has also completed a workshop in Women in Leadership and a course in Influencing Difficult People at the UofA.

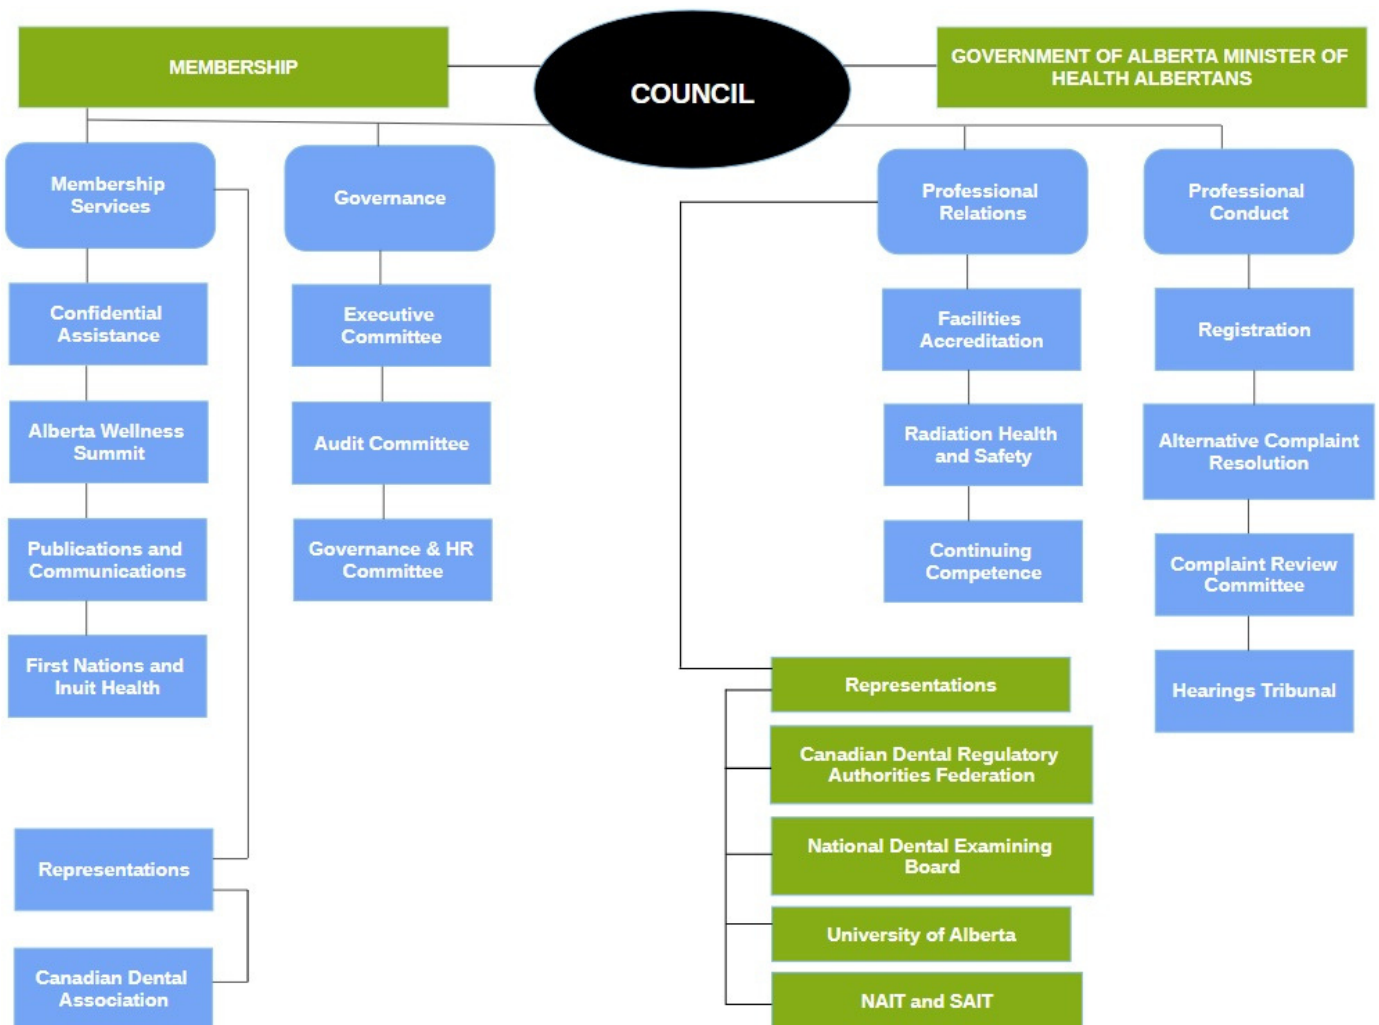

Nikki holds the designation of Certified Professional Public Buyer (CPPB) from National Institute of Governmental Purchasing (NIGP) and is a Certified Quality Improvement Associate (CQIA) from the American Society for Quality (ASQ).

Since 1991, when she held the position of student representative on the University of Alberta – General Faculties Council for the Law Review Committee and Appeal Board, she has partaken and held many committee, board and council positions, which include the Canadian Birkebeiner Society; University of Alberta Alumni council sub-committee; and Public Member with the College of Registered Psychiatric Nurses of Alberta. While at CRPNA she was a member or chair of several different committees which allowed her the opportunity to be involved in all aspects of college business.

Nikki has substantive experience in public governance spanning 25-year work experience in private, public and not-for-profit sectors. She is versed with interpreting and applying legislation, policies, and procedures, and skilled at drafting and approving new Terms of Reference, Standards of Practice, as well as policies and procedures.

Personally, Nikki is most proud to have conquered the basics of Latin. Knowledge of Latin is a skill she is able to put to good use in her position where she negotiates research contracts on behalf of the University of Alberta.

# ADA&C STRUCTURE

# HEALTH PROFESSIONS ACT & GOVERNANCE

Alberta's *Health Professions Act* (HPA) provides the dentists in Alberta the privilege of self-regulation with significant public involvement. The Alberta Dental Association and College provides leadership to the dental profession on professional regulations and member services, and provides the public with information and services to ensure that Albertans receive safe, appropriate, ethical, and quality dental care as an integral part of general health.

The ADA&C Council respects the responsibility to lead the dental profession and is committed to carrying out its activities and govern its regulated members in a manner that protects and serves the public interest. The Council strives to govern the ADA&C in a manner that is transparent to and serves the interests of the public and of its regulated members, while always fulfilling its statutory responsibilities under the HPA. The Council carries out this responsibility by developing regulations, standards of practice, code of ethics, bylaws, and a policy governance model that adheres to the HPA regarding the responsibilities related to registration, competence, practice monitoring, and complaint resolution.

On April 1, 2021 in response to the amendments of Bill 30: *Health Statutes Amendment Act (2020)* the Council composition was changed to a 50/50 governing body; seven elected regulated members of the profession and seven public members appointed by the Lieutenant Governor in Council. With this change in composition the Council also welcomed the first Executive Public Member to the Executive Committee.

The Executive Committee is created under the ADA&C Bylaws as a committee of Council to facilitate the work of Council. It meets between Council meetings, and may make recommendations to Council. The Executive Committee identify issues of importance to the ADA&C and recommends issues for the consideration of Council. The Council has four meetings scheduled per year, and additionally meets as required.

There are two other committees of Council. The Audit Committee is primarily responsible for the financial reporting, information systems, risk management, and internal controls of the ADA&C that are vested in management and overseen by Council. The Governance and Human Resources Committee is responsible to review governance that will enhance the effectiveness of the ADA&C. The Governance and Human Resources Committee assists Council in fulfilling its obligations relating to human resource matters.

The ADA&C Council defines the strategic goals and objectives of the organization (policies and protocols) while the Chief Executive Officer and the administrative team are responsible for the operation of the policies and protocols, including developing and implementing results.

On December 9, 2020 Bill 46: *The Health Statutes Amendment Act, 2020 (No. 2)* was passed by the Legislative Assembly with exceptions.

At the February 11, 2021 meeting, the Council of the Alberta Dental Association and College moved and passed the following motions:

- COUNCIL MOTION – That the Alberta Dental Association and College move to a single mandated College role as required by Bill 46.
- COUNCIL MOTION – That Council moves to accept the name College of Dental Surgeons of Alberta as the new name of the Alberta Dental Regulatory Authority.
- COUNCIL MOTION – That the Alberta Dental Association and College move to support the development and growth of an independent dental Association.

Council, Administration, and Membership are committed to working together in a collaborative and respectful manner to achieve the ultimate goals of:

- Developing and implementing a focused mandate for the **College of Dental Surgeons of Alberta** with emphasis on protecting and serving the public interest as well as upholding the public's trust in the dental profession by establishing, monitoring, and enforcing the standards for registration, professional practice and conduct, standards of practice, and continuing competence for the dental profession in Alberta.
- Developing a solid foundation for a member-driven **dental profession Association** that can advocate for the dental profession, promote dentistry within the community and promote optimal oral health as an integral part of general health for all Albertans.

On October 1, 2021 the section of Bill 46, the *Health Statutes Amendment Act, 2020 (No. 2)* that divests regulatory colleges from associations was proclaimed such that the ADA&C must not have association functions by March 31, 2023, at the latest.

The ADA&C acknowledges the importance of transparency as we evolve to being an independent College and an independent Association. We are committed to sharing information, providing answers, and facilitating feedback with our membership, the public, and our stakeholders.

## Procedural Fairness

The Alberta Dental Association and College regulates Alberta dentists in a manner that protects and serves the public interest. We promote transparency and openness. From time to time, the Ombudsman of Alberta contacts the ADA&C regarding concerns they receive about processes at the College.

The ADA&C welcomes the Ombudsman's input and dialogue to improve our processes to nurture regulatory and system excellence.

In the 2021 reporting period, the Alberta Dental Association and College welcomed the Ombudsman's Early Resolution process. Because of the input of the Ombudsman, changes were made to written communications to facilitate better understanding of the hearing process by a complainant. Also, we were provided an opportunity to clarify the law in place regarding complainant interviews under Part 4 of the *Health Professions Act* and that the law was followed.

The Alberta Dental Association and College also has responded to an investigation regarding amendments to a standard of practice. This investigation remains active.

# REGISTRATION & RENEWAL OF PRACTICE PERMITS

## **General Dentist**

To apply for registration as a general dentist in the province of Alberta, an applicant must provide a copy of the certificate from the National Dental Examining Board of Canada.

## **Dental Specialist**

An applicant for dental specialist requires successful completion of the National Dental Examining Board of Canada – National Dental Specialty Examination.

## **General Dentist and Dental Specialist**

If an applicant wishes to apply for registration as both a general dentist and a dental specialist, a copy of the certificate from the National Dental Examining Board of Canada and successful completion of the National Dental Specialty Examination are required.

All members are required to complete an annual renewal of registration and pay fees as part of this annual renewal process. Annual renewal is completed electronically through the website. All members must meet the continuing education requirements on a two-year cycle as part of their annual renewal.

## **The *Health Professions Act* outlines nine nationally recognized dental specialties:**

### **Dental Public Health**

Dental public health specialists focus on improving the dental health of populations rather than individuals. They principally serve the community through research, health promotion, education, and group dental care programs.

### **Endodontics**

Root canal therapy is the most common procedure performed by endodontists. But that's not all they do. Their specialty encompasses the diagnosis, prevention and treatment of nerve and tissue diseases and injuries.

### **Oral Medicine and Pathology**

Dentists sometimes send specimens to specialists in the area of oral medicine and pathology. These specialists rely on clinical, radiographic, microscopic and biochemical examinations to establish a diagnosis. They focus on the nature and nonsurgical management of disease and disorders that affect oral structures.

### **Oral and Maxillofacial Surgery**

Oral and maxillofacial surgeons diagnose and surgically treat disorders, disease, injuries and defects impacting the functional and esthetic aspects of the mouth, head and neck. For example, they can extract wisdom teeth or broken teeth, treat temporomandibular joint disorders, or place dental implants and bone grafts.

### Oral and Maxillofacial Radiology

Oral and maxillofacial radiologists help diagnose and treat diseases and disorders of the craniofacial complex through the use of imaging technologies such as X-rays, CT scans, and MRIs.

### Orthodontics and Dentofacial Orthopedics

Orthodontists are trained to diagnose, prevent and treat dental and facial irregularities, for both functional and esthetic reasons. Treatment options include the use of dental braces, retainers, spacers and other devices.

### Pediatric Dentistry

Pediatric dentists provide preventive and therapeutic oral health diagnosis, care and consultative expertise for infants and children through adolescence, including those with special care needs. They receive training on handling the fears or anxieties of some children.

### Periodontics

Periodontists focus on the diagnosis, prevention and treatment of diseases and conditions that affect the bones and gums or that lead to loose or lost teeth. They help maintain the health, function and esthetics of these structures and tissues. Periodontists also place dental implants.

### Prosthodontics

Prosthodontists are trained to diagnosis, restore and ensure oral function, comfort, appearance, and health by the restoration of the natural teeth or the replacement of missing teeth (e.g. bridges, dentures, implants).

# REGISTRATION STATISTICS

The following summarizes registration data from the 2021 membership year.

**REGULATED  
DENTISTS:  
2,766**

General Dentists: 2,412  
Dental Specialists: 328  
Education & Research: 25

# CONTINUING COMPETENCE

Council and the Competence Committee of the ADA&C continues to review the program requirements for Continuing Education in terms of the accountability that is required under the *Health Professions Act* and the *Dentists Profession Regulation*. The Continuing Competence requirement is 60 program credits over a two-year period (e.g. January 1, 2020 to December 31, 2021). Continuing Competence requirements must be met prior to registration renewal at the end of the two-year term. If a member has not met their required program credits amount they may apply for a 60-day extension for the two-year term. If the member has not met the required program credits amount they are removed from the register and their right to practice dentistry in Alberta is withdrawn until they obtain the required credits.

In January of 2020, the ADA&C moved toward self-reporting for continuing education. Regulated members are responsible for submitting their continuing education hours. It is the member's ethical responsibility to ensure that all reporting of continuing education is accurate. Failure to do so may constitute unprofessional conduct and may result in disciplinary action by the ADA&C.

To obtain program credits, a regulated member may undertake professional development activities such as attendance at a dental-related scientific or clinical course designed to enhance the professional development of dentists; attendance at a dentistry-related approved study club; receipt of fellowship by examination; completion of a graduate or postgraduate specialty program; publication of a research paper in a peer-refereed journal; self-directed study and other activities approved by the ADA&C Council, the Chief Executive Officer or the Competence Committee.

Dentists must submit verification by the provider as this is mandatory or no program credits are given. Credits are granted based on one hour of lecture time equals one credit time. Lectures and courses must be provided by:

- American Dental Association Continuing Education Recognition Program (ADA CERP) approved providers (approved does not imply acceptance);
- Academy of General Dentistry Program Approval for Continuing Education (AGD PACE) approved providers (approved does not imply acceptance);
- international, national, provincial and state dental programs in General Dentistry and Alberta Dental Association and College recognized specialties;
- Alberta Dental Societies;
- Registered Alberta Dental Specialists;
- University of Alberta Faculty of Medicine and Dentistry;
- Cardio Pulmonary Resuscitation courses by any recognized provider;
- approved Small Group Learning Sessions (or Study Club); and
- other activities approved by Council, the Chief Executive Officer or the Competence Committee.

# PRACTICE VISITS

Practice visits are part of the *Health Facilities Act* and the *Dentists Profession Regulation*. The ADA&C conducts practice visits as part of the Continuing Competence Program as directed by Council. The visitations are designed to assist practitioners in the guidance and implementation of the *Standard of Practice: Infection Prevention and Control Standards and Risk Management for Dentistry* and *Standard of Practice: Minimal and Moderate Sedation Deep Sedation and General Anaesthesia in Non-Hospital Dental Practice*.

## 2021 Continuing Competency and Practice Visits

A total of fifty (50) practice visits were completed from September to December 2021.

# DENTAL FACILITIES ACCREDITATION

All non-hospital surgical facilities and dental surgical facilities where deep sedation and/or general anaesthesia are used in dental treatment must be accredited by the ADA&C. This process involves application, completion of a questionnaire and an inspection to ensure compliance with the ADA&C *Standard of Practice: Minimal and Moderate Sedation Deep Sedation and General Anaesthesia in Non-Hospital Dental Practice*. This process is separate from that required by the College of Physicians and Surgeons of Alberta (CPSA).

Accreditation is required by law in Alberta in the HPA and the *Health Facilities Act*, and is carried out by the Dental Facilities Accreditation Committee. The ADA&C carries out the responsibilities of accreditation (as outlined in the HPA, Schedule 7) by:

- establishing a Dental Facilities Accreditation Committee;
- establishing the power and authority of the Dental Facilities Accreditation Committee to accredit facilities; and
- allowing for decisions of the Dental Facilities Accreditation Committee to be appealed to Council.

Dental Surgical Facility Accreditation Regulation requires Council to approve and publish standards for dental surgical facilities, and requires regulated members working in accredited facilities to comply with those standards. Section 12(1) of Schedule 7 of the HPA requires that a dental surgical facility be accredited before a regulated dentist provides dental surgical services to the public in it.

# 2021 DENTAL FACILITIES ACCREDITATION STATISTICS

Non-Hospital Surgical Facilities  
(NHSF): 34

Dental Surgical Facilities (DSF): 3

**TOTAL  
ACCREDITED  
FACILITIES:  
37**

Total Cases (Procedures) Provided  
in NHSF in 2021: 42,891

## DFAC ACTIVITIES

Facility Assessments: 7  
Extended Accreditation: 4  
Accreditations Outstanding: 4  
New Facility Applications: 0  
New Facilities Accredited: 0

### THREE FACILITIES LEFT THE PROGRAM IN 2021.

*Note: Non-hospital surgical facilities are accredited by both the ADA&C and the College of Physicians & Surgeons of Alberta (CPSA). Dental surgical facilities are accredited by the ADA&C.*

# COMPLAINTS RESOLUTION

The Alberta Dental Association and College (ADA&C) is the dental regulatory authority for Alberta. The ADA&C administers all complaints about Alberta dentists within the authority granted by legislation from the Government of Alberta. The main legislation is the *Health Professions Act*. Under the *Health Professions Act*, the ADA&C is unable to publicly disclose information about a dentist and a complainant.

The public interest is forefront in the complaints process. All regulatory matters must balance protecting the public and ensuring fairness to a dentist.

The complaint process is designed to review a complaint and determine if:

- resolution is appropriate and if so, the complainant and dentist can resolve the conflict directly;
- the Complaints Director can assist in resolving the conflict;
- further investigation is warranted;
- the complaint should be dismissed; or
- the complaint should be referred to a hearing.

If a complaint matter is referred to a hearing:

- a hearing may be held where witnesses, including the complainant, are present and give evidence under affirmation;
- hearings are open to the public and the date of a hearing is published on the ADA&C website;
- the purpose of a hearing process is to determine if the dentist has engaged in unprofessional conduct. The hearing process is focused on the conduct of the dentist and not financial compensation for the complainant;
- each hearing tribunal includes two public members who are appointed by the Lieutenant Governor in Council, Government of Alberta and two dentists; and
- if a hearing tribunal determines that a dentist has engaged in unprofessional conduct, a summary of the decision is posted on the ADA&C public website.

Dentists are encouraged to address treatment concerns with their patients early so that both have an understanding of what the issues are in order to inform future practice while addressing the needs of the particular patient. Where formal complaints are made to the ADA&C, dentists and complainants are encouraged by the Complaints Director, or with the assistance of the Complaints Director, to work together to resolve the complaint.

The ADA&C encourages resolution of advertising complaints. Through collaboration with the Professional Conduct Department, such efforts are often successful in reaching a resolution. Notification of a complaint encourages members to review their advertising to ensure compliance with the *Health Professions Act* and the ADA&C Code of Ethics.

# 2021 COMPLAINTS STATISTICS

# PATIENT RELATIONS PROGRAM

The ADA&C receives and investigates all allegations of sexual abuse and sexual misconduct about members of the profession. The ADA&C has established a Patient Relations Program which includes measures for preventing and addressing sexual abuse and sexual misconduct towards patients by members of the profession. Specifically, the ADA&C's Patient Relations Program includes:

- mandatory educational training and guidelines for all members of the profession;
- mandatory educational training of all ADA&C employees, council, public and member tribunal members;
- the publication of a Standard of Practice: *Sexual Abuse and Sexual Misconduct* which all members of the profession must abide by;
- information on its public website regarding the process for making a complaint to ADA&C about sexual abuse or sexual misconduct by a member of the profession towards a patient;
- a publically accessible three module education resource on its website called Protecting Patients from Sexual Abuse and Misconduct which was developed by the Alberta Federation of Regulated Health Professionals; and
- information on its public website and contact information for specialized sexual assault support services located throughout Alberta.

The ADA&C also publishes information on its public website with respect to findings of unprofessional conduct by members of the profession based in whole or in part on sexual abuse or sexual misconduct in accordance with the Health Professions Act.

**In addition to the above, the ADA&C provides funding for treatment or counselling for eligible patients who have alleged sexual abuse or sexual misconduct by a member of the profession.**

Processes have been put in place by the ADA&C to ensure access to funding in accordance with the Funding for Treatment and Counselling Regulation, which came into effect on June 2, 2021. This regulation outlines requirements relating to the eligibility, administration, and cessation of funding.

The ADA&C is currently modifying their processes to ensure even greater access to funding and transparency to resources for patients who have alleged sexual abuse or sexual misconduct by members of the profession.

# SEDATION

Dentists offering sedation must adhere to the requirements outlined in the Standard of Practice: *Minimal and Moderate Sedation Deep Sedation and General Anaesthesia in Non-Hospital Dental Practice*. This Standard of Practice applies to all dentists who are administering sedation in a dental practice, Non-Hospital Surgical Facility or Dental Surgical Facility. *Deep Sedation and General Anaesthesia in Non-Hospital Dental Practice* replaces the former Standard of Practice: *Dental Facilities Accreditation* and is the standard of practice for administration of sedation with respect to dental surgical services in Alberta in accordance with Section 4 of the Dental Surgical Facility Accreditation Regulation.

Sedation is a pharmacologically-induced, minimally to moderately depressed level of consciousness that retains the patient's ability to independently and continually maintain an airway and respond to physical stimuli and verbal command. Specifically, the *Minimal and Moderate Sedation* section of the Standards of Practice applies to:

- dental practices where sedation is administered;
- dentists who administer sedation;
- dentists who administer Modalities 1 through 8 in a dental practice that is within or part of a non-hospital dental practice; and
- clinical personnel who provide surgical or sedation support to dentists administering sedation.

*Minimal and Moderate Sedation* consists of eight modalities of sedation, and is divided into eight sections representing the eight modalities. The modality determines the physical equipment and personnel requirements of the dental setting, the training requirements of the dentist administering the sedation and the clinical personnel assisting the dentist. The requirements for each modality, when used separately or in combination by a dentist in a non-hospital dental practice, must be met.

# SEDATION

## The modalities are:

**Modality 1:** Nitrous Oxide Sedation for patients 12 years of age and older

**Modality 2:** Nitrous Oxide Sedation for patients under 12 years of age

**Modality 3:** Oral Sedation for patients 12 years of age and older

**Modality 4:** Oral Sedation for patients under 12 years of age

**Modality 5:** Oral Sedation with Nitrous Oxide Sedation for patients 12 years of age and older

**Modality 6:** Oral Sedation with Nitrous Oxide Sedation for patients under 12 years of age

**Modality 7:** Parenteral (intravenous only) Sedation for patients 12 years of age and older

- Single Drug IV (7S – [Benzodiazepine])
- Two Drug IV (7F – [Benzodiazepine with Fentanyl])

**Modality 8:** Parenteral (intravenous only) Sedation for patients under 12 years of age

- Single Drug IV (7S – [Benzodiazepine])
- Two Drug IV (7F – [Benzodiazepine with Fentanyl])

## **DGA Deep Sedation/General Anaesthesia**

- Patients 12 years of age and older
- Patients under 12 years of age

The ADA&C issues a permit based on the level of competency achieved for all dentists providing Modality 5 through Modality 8 described by this Standard. This permit is specific to the dentist.

The ADA&C issues a permit to a dentist who has successfully completed an educational program in the administration of deep sedation and/or general anaesthesia that has been authorized by Council. This permit is specific to the dentist and the accredited dental surgical facility.

Where more than one modality of sedation is administered (including pre-sedation) at a single appointment, a dentist may only assess a fee for the highest modality administered at that appointment.

An Unforeseen Event must be reported to the Chief Executive Officer of the ADA&C. An Unforeseen Event is if a patient's response to sedation results in:

- death within the dental office or within 10 days of the sedation procedure;
- depression beyond the level of sedation intended;
- entry of the patient into levels of deep sedation;
- general anaesthesia; or
- an unanticipated event results in the need for transfer of the care of the patient to another provider, a dental surgical facility, a non-hospital surgical facility or hospital.

## 2021 SEDATION STATISTICS

Dentists are required to register annually specifying modality of sedation administered.

REGISTRATION	NUMBER
Modality 1: Nitrous Oxide Sedation for patients 12 years of age and older	1194
Modality 2: Nitrous Oxide Sedation for patients under 12 years of age	1052
Modality 3: Oral Sedation for patients 12 years of age and older	1251
Modality 4: Oral Sedation for patients under 12 years of age	48
Modality 5: Oral Sedation with Nitrous Oxide Sedation for patients 12 years of age and older	531
Modality 6: Oral Sedation with Nitrous Oxide Sedation for patients under 12 years of age	42
Modality 7: Parenteral (intravenous only) Sedation for patients 12 years of age and older	
• Single Drug IV (7S - [Benzodiazepine])	87
• Two Drug IV (7F - [Benzodiazepine with Fentanyl])	143
Modality 8: Parenteral (intravenous only) Sedation for patients under 12 years of age	
• Single Drug IV (8S - [Benzodiazepine])	14
• Two Drug IV (8F - [Benzodiazepine with Fentanyl])	26
DCA Deep Sedation/General Anaesthesia	
• Patients 12 years of age and older	31
• Patients under 12 years of age	23

TOTAL PERMITS ISSUED: 593\*

# FACIAL ESTHETIC THERAPIES & ADJUNCTIVE PROCEDURES

The Standard of Practice: *Facial Esthetic Therapies and Adjunctive Procedures* applies to dentists who are administering Schedule 1 drugs such as neuromodulators (e.g. Botulinum Toxin Type A), dermal fillers, other agents (injected and/or topical), and adjunctive non-surgical and/or surgical therapies used to provide comprehensive therapeutic and esthetic oral and maxillofacial treatment for the restoration of a patient's appearance in form and function, or to enhance their appearance, or both.

The ADA&C issues a certificate based on the level of competency achieved for all dentists providing the levels of treatment described in the Standard. The ADA&C maintains a list of approved programs at each level. Oral and Maxillofacial Surgeons may provide any procedures, if their training encompassed said therapeutic procedures. Dentists may not provide any of these procedures without a certificate.

**Level 1:** Applied Anatomy Review and Introduction to Neuromodulators (*Level 1 does not authorize the dentist to provide any patient treatment*)

**Level 2:** Basic Neuromodulators - Upper Face and Bruxism Treatment

**Level 3:** Advanced Neuromodulators - Mid-Face and Lower Face/Neck Regions and Myofascial Pain and Dysfunction Treatment

## Level 4:

- 4a – Dermal Fillers - Basic Facial Dermal Fillers
- 4b – Dermal Fillers - Advanced Facial Dermal Fillers
- 4N – Neuromodulators for Deep Muscles of Mastication

**Level 5:** Advanced Non-Surgical Esthetic Procedures

**Level 6:** Advanced Surgical Esthetic Procedures

## DENTISTS REGISTERED AND WHO HOLD CERTIFICATES TO ADMINISTER FACIAL ESTHETIC THERAPIES AND ADJUNCTIVE PROCEDURES

LEVEL OF CERTIFICATION	# OF DENTISTS
Level 1: Applied Anatomy Review and Introduction to Neuromodulators ( <i>Level 1 does not authorize the dentist to provide any patient treatment</i> )	725
Level 2: Basic Neuromodulators: Upper Face and Bruxism Treatment	655
Level 3: Advanced Neuromodulators: Mid-Face and Lower Face/Neck Regions and Myofascial Pain and Dysfunction Treatment	196
Level 4: 4a – Dermal Fillers: Basic Facial Dermal Fillers	65
Level 4: 4b – Dermal Fillers: Advanced Facial Dermal Fillers:	33
Level 4: 4N – Neuromodulators for Deep Muscles of Mastication:	19
Level 5: Advanced Non-Surgical Esthetic Procedures	17
Level 6: Advanced Surgical Esthetic Procedures	16

# RADIATION HEALTH & SAFETY

Since July 1997, the Alberta Dental Association and College has provided services in the administration of the *Radiation Protection Act* and *Radiation Protection Regulation* to owners of diagnostic X-ray equipment and class 3b and 4 lasers installed or operated within dental facilities, including dental education facilities, but excluding dental facilities owned by Alberta Health Services. Bill 47 *Ensuring Safety and Cutting Red Tape Act 2020* amended the *Occupational Health and Safety Act* (OHS) Act and OHS Codes to incorporate these radiation protection laws. These changes were proclaimed on December 1, 2021 at which time the new OHS Act and OHS Codes became effective and the *Radiation Protection Act* and *Regulation* have been repealed. The Alberta Dental Association and College is an Authorized Radiation Health Registration Agency, designated with certain roles and responsibilities under the *Occupational Health and Safety Act*.

The ADA&C maintains the database of all registered radiation equipment owned by dentists in the province. Registration certificates are issued after the equipment is inspected and registered and must be displayed in all facilities. The ADA&C monitors the existence of a Quality Control Program and the mandatory use of personal dosimetry services in all facilities.

## 2021 RADIATION HEALTH & SAFETY STATISTICS

Active facilities certified	1,562
Active owners registered	1,158
Pieces of active equipment certified excluding lasers	7,557
Class 3b or Class 4 lasers	897
Suspended or cancelled registrations/certificates	0
Reported overexposure	0
Investigations undertaken	0
Complaints received	0

# COMMUNITY ASSISTANCE FUND

The Community Assistance Fund is administered by the Edmonton Community Foundation for the Alberta Dental Association and College. The intent of the Fund is to enhance the quality of life for those living in Alberta by supporting programs that assist people who face barriers in accessing oral health services provided by Alberta dentists. As the Fund has a provincial mandate, the Community Foundation has worked with funding partners in other centers to identify agencies which are able to use the funds within the funds intent. Grants are allocated from annual earnings only. This fund will continue into perpetuity.

The following is the fund update for year-end 2021:

Balance - beginning of 2021	\$257,039
Donations received	300
Net investment income	\$39,130
Grants	0
Operating expenses	(1,878)
Balance - end of 2021	\$294,592
Available to grant in 2022	\$11,784

# NAIT ENDOWMENT FUND

Endowments provide important, sustainable support for NAIT programs to provide meaningful learning opportunities, help students attain their personal and career aspirations and create industry-driven applied research.

## PRINCIPLE

Opening balance June 30, 2020	\$26,273
Contributions July 1, 2020 - March 31, 2021	\$0
Re-invested earnings March 31, 2021	\$394
Closing balance March 31, 2021	\$26,667

## EARNINGS TO SUPPORT STUDENT AWARDS

Opening balance June 30, 2020	\$1,796
Interest supplement contributions	\$0
*Award(s) distributed July 1, 2020 - March 31, 2021	\$500
Current yeas earnings to support award(s)	\$906
Previously deferred earnings to support award(s)	\$950
Closing balance - March 31, 2021	\$3,152
<b>Total earnings as of March 31, 2021</b>	<b>\$1,300</b>

*Note: NAIT has changed the fiscal year to align with the Government of Alberta. As a result the 2020-21 reporting period was July 1, 2020 – March 31, 2021 (9 months). Any award disbursed after March 31, 2021 will be included in the 2021/22 endowment report. Going forward the fiscal reporting period will be April 1 – March 31.*

## INDEPENDENT AUDITORS' REPORT

To the Members of Alberta Dental Association & College

### *Opinion*

The summary financial statements of Alberta Dental Association & College (the Entity), which comprise:

- the summary statement of financial position as at December 31, 2021
- the summary statement of operations for the year then ended
- the summary statement of changes in fund balances
- and related note

are derived from the audited financial statements of Alberta Dental Association & College as at and for the year ended December 31, 2021 (the audited financial statements).

In our opinion, the accompanying summary financial statements are consistent, in all material respects, with the audited financial statements, in accordance with the criteria disclosed in Note 1 in the summary financial statements.

### *Summary Financial Statements*

The summary financial statements do not contain all the disclosures required by Canadian accounting standards for not-for-profit organizations. Reading the summary financial statements and the auditors' report thereon, therefore, is not a substitute for reading the Entity's audited financial statements and the auditors' report thereon.

The summary financial statements and the audited financial statements do not reflect the effects of events that occurred subsequent to the date of our report on the audited financial statements.

# FINANCIAL STATEMENTS

## ***Management's Responsibility for the Summary Financial Statements***

Management is responsible for the preparation of the summary financial statements in accordance with the criteria disclosed in Note 1 in the summary financial statements.

## ***Auditors' Responsibility***

Our responsibility is to express an opinion on whether the summary financial statements are consistent, in all material respects, with the audited financial statements based on our procedures, which were conducted in accordance with Canadian Auditing Standards 810, Engagements to Report on Summary Financial Statements.
